Kitchen Fume Extraction/ Ventilation Systems

- Fume Exhaust Hoods of Kitchen - Commercial
- G.I. Exhaust Ducts
- Fresh Air G.I. Duct (Galvanised Iron)
- Oil Filter/Greece Filter for Hood
- Centrifugal Exhaust Blowers
- Axial Flow Fresh Air / Exhaust Fans

Setting new benchmarks of performance, we are one of the leading names, engaged in the manufacturing and exporting of world-class industrial air pollution control equipment and ventilation systems such as: Centrifugal Blowers, Axial Flow Fans, Industrial Air Handling Unit, Dust Collectors, Air Curtains and many more.

Established in the year 1998, we are committed to offer quality products using best available and premium raw components and material. Because of the robust construction, our wide range of products can aptly serve the requirements of diverse industries such as - Thermal Power Plants, Coal, Cement, Engineering Industries, Pharmaceuticals, Textiles, Sugar and Steel Plants, Food & Hospitality Industry.

Our modernized technology and streamlined production processes along with our capability to deliver on time have helped us in creating a benchmark in this industry. Having years of experience in this area of operation, we have also exported our products to countries like Nigeria, West Indies, Bahrain, Abu Dhabi, UAE and Oman.

We are specialized in complete Kitchen Fume Extraction and Ventilation System for Hotel Kitchen, Commercial Restaurants, Malls, Banquet Hall, Resorts and Allied Industries.
